

# J.J. Carroll House

J.J. Carroll House is the newest addition to the Brighton Campus and 2Life's first Passive House certified project. The Boston Housing Authority selected 2Life to modernize 64 public housing units, and 2Life has just completed its work to provide 142 new affordable apartments, expanding affordable housing on the site particularly for seniors at risk of displacement from properties with expiring affordability restrictions. The new building includes a Program of All-inclusive Care for the Elderly (PACE) Center for healthcare and homecare services (also available to the surrounding community), operated by Element Care.
